

Country Springs Elementary School

Welcome Parent Volunteers!

Parent volunteers are always welcome at Country Springs! We encourage every parent to become involved and volunteer in the classroom or at school events. Contact your child's teacher to set up a time volunteer in the classroom.

We would like to share some reminders and/or hints for parents when volunteering in the classroom.

Before parents begin working in the classroom, be sure to sign in at the office and turn off your cell phone or put it on "vibrate."

1. Be positive with the children and accept each child at his/her own level of development and ability.
2. Don't compare children within the class or with family members.
3. Allow children to do their own work whenever possible unless they require intervention to get back on track.
4. Encourage children to pick up after themselves and put things away. Helping to make each child responsible for his/her own actions is one of the most important tasks we have.
5. Help train the children to be good listeners by making sure that everyone is focusing on directions so there will not be a need for frequent repetitions.
6. If you are unsure about what you are doing, don't be afraid to ask for help.
7. We expect each child to complete the tasks assigned so when calling a child say "It is your turn now to..."

REMEMBER: CONFIDENTIALITY IS AN ABSOLUTE MUST!
